NAO Portal**Mr Leo Brincat Visits the National Audit Office (Malta) to make a Presentation on two topical Reviews published recently by the European Court of Auditors**

09-03-2021

Reflecting the excellent working relationship prevailing between the National Audit Office (Malta) and the European Court of Auditors, this morning Mr Leo Brincat, the Maltese Member of the European Court of Auditors, visited the NAO during which he made an extensive presentation on the extremely relevant theme 'ECA reviews on the EU's initial contribution to the public health and economic response to COVID-19'.

In an introductory message, Mr Charles Deguara, Auditor General, thanked Mr Brincat for finding the time during his visit to Malta to duly update NAO and IAID staff on these two topical reviews published recently by the ECA. He also said that incidentally the NAO's Performance Audit Section is also working on audit assignments that are related to Government's response to the COVID-19 pandemic. Indeed, a preliminary report on this subject is scheduled to be published by next month.

Mr Leo Brincat presented the contents of the two reviews published by the ECA and outlined further tasks that will be carried out as part of the ECA Annual Work Programme for 2021, including topical themes on Vaccine Procurement and other health issues as well as the impact on Covid-19 recovery funding.

Various other distinguished guests, including members of the Public Accounts Committee, also participated at this event.

At the end of his presentation, Mr Brincat addressed various questions raised from the floor.
